Tuk-tuks

Tuk-tuks are the most iconic form of transport in Cambodia. These three-wheeled vehicles are cheap, cheerful, and a great way to experience the local culture. However, they can also be noisy, uncomfortable, and dangerous. If you're not used to riding in tuk-tuks, be sure to hold on tight!

Buses

Buses are a more comfortable and reliable way to travel around Cambodia. They're also relatively cheap, especially if you book your tickets in advance. However, buses can be slow and crowded, especially during peak season. If you're in a hurry, you may want to consider taking a plane or train instead.

Trains are the most comfortable and scenic way to travel around Cambodia. They're also relatively fast, especially on the new high-speed lines. However, trains can be expensive, especially if you book your tickets at the last minute. If you're on a budget, you may want to consider taking a bus or plane instead.

Boats

Boats are a great way to travel around Cambodia's waterways. They're relatively cheap and offer a unique perspective on the country. However, boats can be slow and uncomfortable, especially if you're traveling in a small boat. If you're prone to seasickness, you may want to consider taking a plane or train instead.
