The Birth of a Visionary Concept

Conceived in the early 1900s by visionary engineer William Kissam Vanderbilt II, The Long Island Motor Parkway was an ambitious undertaking that sought to create a scenic and safe roadway for the growing number of motorists. Vanderbilt, a prominent sportsman and automobile enthusiast, envisioned a grand boulevard that would connect the bustling metropolis of Queens to the tranquil shores of Montauk Point.

Engineering Marvels and Architectural Splendor

The construction of the Motor Parkway was a testament to engineering prowess and architectural brilliance. Its 108-mile stretch featured gracefully curved roadways, daring bridges, and elegant parkway lodges designed by renowned architects such as Stanford White and William Higginson.

A Haven for Motoring Enthusiasts

As the Motor Parkway opened its gates, it quickly became a mecca for motorists from all walks of life. From wealthy aristocrats to adventurous thrill-seekers, the parkway's silky smooth surfaces and picturesque surroundings provided an unparalleled driving experience.

The Golden Age of Motoring

The 1920s marked the golden age of the Motor Parkway, a time when sleek automobiles and fashionable attire graced its scenic byways. The parkway served as a stage for countless races, rallies, and endurance tests that showcased the burgeoning automotive industry.

Decline and Abandonment

随着大萧条的到来，Motor Parkway 的辉煌时代逐渐消逝。随着公共公路的改善和汽车普及率的不断提高，原先专为富有精英设计的私人园林道路变得不再必要。1938年，Motor Parkway正式关闭，其命运被遗忘的时光所笼罩。
